

Focus On....

Worlco Computer Resources, Inc, 901 Route 38, Cherry Hill, NJ

Worlco Computer Resources and Worlco Consulting are Total Information Systems Staffing organizations that provide a full range of recruiting and consulting services relating to the computer industry. Contingency fee placement, executive search, contract consulting and PC support services are some the services Worlco provides to its clients. Headquartered in Suburban Philadelphia, with satellite offices in New Jersey and North Carolina, Worlco services clients locally, regionally, nationally and internationally. Working with its worldwide affiliates, Worlco is able to present a selection of qualified candidates when a client is interested in relocating an individual.

The background of a Worlco Partner may encompass many disciplines in the technology industry. Each Worlco Partner is trained in recruiting strategies, interviewing principles and techniques, effective reference checking and resume development. Additionally, each Partner maintains a constant awareness of the candidates they represent and the clients they serve. When a client receives a candidate's resume, the background and experience of that individual will be on-target. Each candidate has been pre-qualified through a thorough interviewing and screening process that measures the competency of the candidate relative to their career objectives.

Worlco was established in 1982, by Bob Hughes and Frank Parisi, and offers a full range of staffing solutions and PC Support Services through 26 staffing professionals in offices located in Cherry Hill, NJ, Wayne, PA and Raleigh, NC. Please visit our website at www.worlco.com.
